Professional Experience

AI Automation Specialist (Freelance) — 2023 to Present

- Built custom n8n automation workflows that reduced clients' manual workloads significantly.
- Integrated Customer Feedback Automation systems for hands-free data routing and categorisation.
- Developed Airtable-n8n data pipelines for structured task management across teams.
- Created a Web Assistant using Google Gemini API for natural-language business queries.
- Advised clients on workflow bottlenecks and produced tailored automation roadmaps.

Graphic Designer – Infographics & Data Visualisation (Freelance) — 2022 to Present

- Produced 15+ infographics on energy and electronics data published across digital platforms.
- Topics covered: PS-5, hair dryers, washing machines, fans, stoves, WiFi routers, Raspberry Pi.
- Maintained consistent brand identity and visual style across all deliverables using Canva.
- Managed project timelines independently with iterative client feedback cycles.

Community Leader & Social Worker — 2021 to Present

- Executed 200+ individual cases: weddings, medical emergencies, hand-pumps, and urgent family needs.
 - Manages ongoing monthly support for 40+ families including scholarships, rent, food, and healthcare.
 - Administers a WhatsApp fundraising community with full transparency and proof of delivery per case.
 - Maintains a public Facebook page (853+ followers) with real-time case updates and impact stories.
-

Services Offered

- AI Workflow Automation: Custom n8n workflows, API integrations, and business process optimisation.
- Graphic Design: Infographics, data visualisation, and branded visual content.
- Consultation: Workflow audits, bottleneck identification, and automation strategy planning.
